COLLECTION OF FILLERS

Actual patients treated with JUVÉDERM VOLUMA® XC in the cheeks, JUVÉDERM® XC in the lines around the nose and mouth, and JUVÉDERM® Ultra XC in the lips. Results may vary.

*Based on market share of filler brands in 2018.

JUVÉDERM® Injectable Gel Fillers Important Information

APPROVED USES

JUVÉDERM VOLUMA® XC injectable gel is for deep injection in the cheek area to correct age-related volume loss in adults over 21.

JUVÉDERM® XC and JUVÉDERM VOLLURE™ XC injectable gels are for injection into the facial tissue for the correction of moderate to severe facial wrinkles and folds, such as nasolabial folds. JUVÉDERM VOLLURE™ XC injectable gel is for adults over 21.

JUVÉDERM® Ultra XC is for injection into the lips and perioral area for lip augmentation in adults over 21.

JUVÉDERM VOLBELLA® XC injectable gel is for injection into the lips for lip augmentation and for correction of perioral lines in adults over 21.

Please see Important Safety Information inside.

JUVÉDERM®

COLLECTION OF FILLERS

IMPORTANT SAFETY INFORMATION

Are there any reasons why I should not receive any JUVÉDERM® injectable gel formulation?

Do not use these products if you have a history of multiple severe allergies or severe allergic reactions (anaphylaxis), or if you are allergic to lidocaine or the Gram-positive bacterial proteins used in these products.

What precautions should my doctor advise me about?

- Tell your doctor if you are pregnant or breastfeeding. The safety of these products for use during pregnancy or while breastfeeding has not been studied
- The safety of JUVÉDERM VOLUMA® XC in patients under 35 years or over 65 years, the safety of JUVÉDERM® XC and JUVÉDERM® Ultra XC injectable gels in patients under 18 years, and the safety of JUVÉDERM VOLLURE™ XC and JUVÉDERM VOLBELLA® XC in patients under 22 years has not been studied
- The safety and effectiveness of JUVÉDERM VOLUMA® XC in areas other than the cheek area, JUVÉDERM® XC and JUVÉDERM VOLLURE™ XC for areas other than facial wrinkles and folds, and JUVÉDERM® Ultra XC and JUVÉDERM VOLBELLA® XC in areas other than the lips and perioral area have not been established in clinical studies
- Tell your doctor if you have a history of excessive scarring (eg, hypertrophic scarring and keloid formations) or pigmentation disorders, as use of these products may result in additional scars or changes in pigmentation
- Tell your doctor if you are planning other laser treatments or a chemical peel, as there is a possible risk of inflammation at the treatment site if these procedures are performed after treatment
- Patients who experience skin injury near the site of injection with these products may be at a higher risk for side effects
- Tell your doctor if you are on immunosuppressive therapy used to decrease the body's immune response, as use of these products may result in an increased risk of infection
- Tell your doctor if you are using medications that can prolong bleeding, such as aspirin, ibuprofen, or other blood thinners, as this may result in increased bruising or bleeding at the injection site
- Minimize strenuous exercise, exposure to extensive sun or heat, and alcoholic beverages within the first 24 hours following treatment

What are possible side effects?

The most commonly reported side effects with JUVÉDERM® injectable gels included injection-site redness, swelling, pain, tenderness, firmness, lumps/bumps, bruising, discoloration, and itching. For JUVÉDERM VOLBELLA® XC, dryness was also reported. For JUVÉDERM VOLUMA® XC, most side effects were moderate and lasted 2 to 4 weeks. For JUVÉDERM® XC, JUVÉDERM VOLLURE™ XC, and JUVÉDERM® Ultra XC injectable gels, most side effects were mild or moderate and lasted 14 days or less. For JUVÉDERM VOLBELLA® XC, most side effects were mild or moderate and lasted 30 days or less.

One of the risks with using these products is unintentional injection into a blood vessel, and, while rare, the complications can be serious and may be permanent. These complications, which have been reported for facial injections, can include vision abnormalities, blindness, stroke, temporary scabs, or permanent scarring.

As with all skin injection procedures, there is a risk of infection.

To report a side effect with any JUVÉDERM® product, please call Allergan at 1-800-433-8871. Please visit Juvederm.com or talk to your doctor for more information.

Available by prescription only.

Actual patient treated with JUVÉDERM VOLUMA® XC in the cheeks, JUVÉDERM VOLLURE™ XC in the lines around the nose and mouth, and JUVÉDERM VOLBELLA® XC in the lips. Results may vary.

WHAT IS JUVÉDERM®?

JUVÉDERM® fillers are uniquely designed to give you volume where you need it.

Named “a top injectable filler”
by Harper’s BAZAAR®.*

*Harper's BAZAAR®, along with an expert panel of 26 dermatologists, make-up artists, beauty editors, and influencers, named JUVÉDERM® a top injectable filler among hyaluronic acid injectables.

Please see Important Safety Information on pages 2 and 3.

JUVÉDERM VOLUMA® XC

When you're young, cheeks are full and round. As you age:

- Your cheek area loses its youthful shape
- Your cheeks flatten
- Your skin may begin to sag

JUVÉDERM VOLUMA® XC is designed to add volume to your cheeks, giving you a **smoother, natural-looking contour** and a **more youthful look**.*

LIFT IT CHEEKS

Actual patient treated with JUVÉDERM VOLUMA® XC in the cheeks, JUVÉDERM® XC in the lines around the nose and mouth, and JUVÉDERM® Ultra XC in the lips. Results may vary.

JUVÉDERM VOLUMA® XC injectable gel is for deep injection in the cheek area to correct age-related volume loss in adults over 21.

- The most commonly reported side effects included injection-site redness, swelling, pain, tenderness, firmness, lumps/bumps, bruising, discoloration, and itching
- Most side effects were moderate and lasted 2 to 4 weeks

Please see Important Safety Information on pages 2 and 3.

The **longest-lasting** HA filler available—
lasts up to 2 years†

*Patients perceived themselves as looking 5 years younger at 6 months after treatment and 3 years younger at 2 years after treatment, as reported by people in the clinical study. Results may vary.

†With optimal treatment.
